FULLHOUSE Is The Ultimate Cover Band!

The story of Full House begins over 25 years ago, when Joe Scollo teamed up with bassist Bob Sole. Joe and Bob shared a mutual admiration and respect for the music of The Beatles and the melodic rock and roll of the 60s and 70s. From that point, the band's musical palette has been ever-expanding to include the most popular songs from every era and multiple genres as well as the best current music with an ear toward audience recognition and danceability.

Joe and his long time partner and collaborator, keyboardist Keith Hill form the heart and soul of Full House and possess a sincere respect for all of the music they perform. Their mission and standard is to recreate and emulate each individual artist and particular song while maintaining the spontaneity and excitement that a live performance demands. It is that ideal that Full House has built their reputation on and will continue to deliver.

Throughout our career, we have performed in Long Island's and the tri-state area's most popular venues. A list of some of our more notable clients include many celebrities from the sports world, such as Bill Parcells, Wayne Gretzky, Brian Leetch, Rick Pitino, Joe Pepitone, Whitey Ford, Bobby Valentine, Bret Saberhagen, and Mike Francesa (WFAN).

Our gimmick has always been no gimmick - just the music, performed authentically and true to the original artists, with a high energy presentation. All of our band members have impressive resumes, and we can add more musicians (horn players, percussionists, etc.) or any performer you wish to suit your individual needs and taste.

"The Great American Rock Show" is a tribute to the music of the great American classic rock artists & bands who came of age particularly in the late 60s & 70's. Legends like Bruce Springsteen, Tom Petty, Bob Seger, John (Cougar) Mellencamp, Creedence Clearwater Revival (CCR), Bob Dylan, The Doors & more. As most music fans well know, "Tribute" bands have been very popular over the past 10 years or so but the gist of what they do is performing the songs with the sound & look of one particular band or artist- ie 2U (U2), Backstreets (Springsteen), Big Shot (Billy Joel) & so forth. While these bands are for the most part very authentic recreations of the original artists, "GACRS" is about the variety of music within a genre - in this case Classic American Rock & Roll.
